START WINNING WITH PROGRESSIVE HEAVY TRUCK PROGRAMS

DISCOVER OUR MOST COMPETITIVE RATES— ESPECIALLY FOR PREFERRED RISKS

As the #1 truck insurer, we're a great choice for local, regional, or long-haul truckers who depend on their truck to drive their business.

We're particularly competitive for owner/operators who have small fleets and utilize company-owned vehicles—tenured businesses that have a great safety record and are financially strong will see our best rates. And we specialize in Non-Trucking Liability and Physical Damage coverage.

You can quote single vehicle risks or fleets of up to nine vehicles on *ForAgentsOnly.com* (FAO).

We don't have an appetite for Hired Auto exposure on transportation risks or trucking with a lot of vehicle endorsement activity. However, agents can call to discuss availability if Hired Auto coverage is needed for certificate purposes.

QUOTING PROGRESSIVE HEAVY TRUCK PROGRAMS IS EASY

- 1. Go to For Agents Only.com (FAO) and start a new quote.
- 2. Choose "Commercial Auto" as the product.
- **3.** Answer the questions as you would for Personal Auto.
- **4.** Complete commercial-specific fields, including:

USDOT: A Federal Motor Carrier Safety Administration number assigned to commercial vehicles

RADIUS: Distance the vehicle travels to a destination

CDL: Commercial Driver's License

GL OR BOP: Whether the business has a General Liability or a Business Owner's Policy

BUSINESS YEAR: The year the business opened

WAIVERS OF SUBROGATION: States that insurance company cannot recover damages from the job site; often contractually required by someone who is employing the named insured

STATE OR FEDERAL FILINGS: Federal, MCS90, Federal Cargo, (BMC 34), State, State Cargo, (Form H), etc.

ADDITIONAL INSURED ENDORSEMENT: A listed person, entity, or corporation who shares many of the rights of the named insured; often contractually required by someone who is employing the named insured

5. Choose the payment options, bind the policy online and make the sale. That's it!
