

# SMART HAUL PROGRAM

## Use this form to enroll existing policies

In our Smart Haul® program, Progressive Commercial Auto customers with an electronic logging device (ELD) are guaranteed savings of 3%, but many will save 8%—and some may save as much as 18% on their Commercial Auto policy premium.\* We're offering the savings in exchange for permission to access their driving data. The premium will be adjusted on the quote prior to bind.

### DIRECTIONS

1. Prior to binding the policy, complete this application and save your changes. **All fields are required.** Then, send the PDF to [smarthaul@email.progressive.com](mailto:smarthaul@email.progressive.com). **NOTE: Submission of this form indicates that you have obtained the customer's permission for Progressive to access driving data from the ELD vendor.**
2. Within one business day, you'll be notified via the email address provided below that the quote is ready with the savings applied.

### ELIGIBILITY CRITERIA

**Is the customer using an ELD in a vehicle on a Progressive policy that includes primary liability coverage?**

- ☐ **NO—STOP**, the customer is not eligible for the program.
- ☐ **YES—CONTINUE** to the next question.

### ENROLLMENT INFORMATION

| Agent information    | Customer information   |
|----------------------|--|
| Agent code _____     | Named insured _____  |
| Agency name _____    | Policy state _____   |
| Producer name _____  | USDOT # _____  |
| Producer email _____ | Must have USDOT # to be eligible. If it will be obtained within 60 days, enter "9999999999" as you did in the quote. |
| Producer phone _____ | Policy # _____   |

### WHAT TYPE OF ELD ARE THEY USING IN THIS VEHICLE? (choose one)

- ☐ Keep Truckin (Keep Truckin will send a text or email to the account admin. Must reply to receive credit.)
- |  |   |  |  |
|--|---|--|--|

### CUSTOMER CONSENT

- ☐ I have received consent from the customer for Progressive to access the driving data from the ELD vendor.

### IMPORTANT INFORMATION FOR THE CUSTOMER

- Application submission indicates that you have obtained the customer's permission for us to retrieve, retain, and use the driving data.
- The driving data may be used to adjust the policy premium, for underwriting, and in claim resolution.
- We will safeguard the customer's data and protect their privacy. We will not sell or share the customer's personal data.
- Full Terms and Conditions can be found [here](#).

\*Progressive will obtain the driving data directly from the ELD vendor, if possible. Customers with little to no driving data will receive the minimum 3 percent participation savings initially, to be re-assessed at renewal once Progressive has collected enough data. Customers with at least three months of driving data who demonstrate safer driving habits can receive greater reductions. If Progressive does not yet have a data-sharing relationship with the customer's ELD vendor and cannot obtain the driving data, the minimum participation savings will be applied. Progressive intends to have data-sharing agreements established with the vast majority of the ELD market.
